Your downloading, copying, modifying, displaying, distributing or use of any software and/or data from i2b2 (collectively, the "Software") constitutes acceptance of all of the terms and conditions of this Software License. If you do not agree to such terms and conditions, you have no right to download, copy, modify, display, distribute or use the Software.

As used in this Software License, "you" means the individual downloading and/or using, reproducing, modifying, displaying and/or distributing the Software and the institution or entity which employs or is otherwise affiliated with such individual in connection therewith. The BWH hereby grants you, with right to sublicense, with respect to BWH's rights in the software, and related technical data, if any, which is the subject of this Software License, a royalty-free, non-exclusive license to use, reproduce, make derivative works of, display and distribute the Software, provided that:

(a) You accept and adhere to all of the terms and conditions of this Software License;

(b) In connection with any copy of or sublicense of all or any portion of the Software, all of the terms and conditions in this Software License shall appear in and shall apply to such copy and such sublicensee, including without limitation all source and executable forms and on any user documentation, prefaced with the following words: "All or portions of this licensed product (such portions are the "Software") have been obtained under license from The Brigham and Women's Hospital, Inc. and are subject to the following terms and conditions:"

(c) You preserve and maintain all applicable attributions, copyright notices and licenses included in or applicable to the Software.

Modifications to the Software shall mean any addition to or deletion from the substance or structure of either the Software or any previous Modifications. When Software is released as a series of files, a Modification is: (i) any addition to or deletion from the contents of a file containing the Software or previous Modifications; or (ii) any new file that contains any part of the Software or previous Modifications.

(a) You agree that you will deliver, and you will cause all sublicensees to deliver, to BWH copies of all Modifications that are made to the Software, on or before the date on which the Modifications are distributed to any third party, and you hereby grant to BWH, and will cause all of your sublicensees to grant to BWH, a non-exclusive, royalty-free, irrevocable, non-terminable license to use, reproduce, make derivative works of, display, perform, and distribute any and all Modifications in source code and binary code form for any purpose and to sublicense such rights to others.

(b) You agree that all Modifications of the Software must be clearly identified and marked as such, and must not be misrepresented as being the original Software.

(c) You agree to consider making, but are under no obligation to make, the source code of any of your Modifications to the Software freely available to others on an open source basis.

The license granted under this Software License includes without limitation the right to (i) incorporate the Software into proprietary programs (subject to any restrictions applicable to such programs), (ii) add your own copyright statement to your Modifications of the Software, and (iii) provide additional or different license terms and conditions in your sublicenses of Modifications of the Software; provided that in each case your use, reproduction or distribution of such modifications otherwise complies with the conditions stated in this

Software License.

This Software License does not grant any rights with respect to third party software, except those rights that BWH has been authorized by a third party to grant to you, and accordingly you are solely responsible for (i) obtaining any permissions from third parties that you need to use, reproduce, make derivative works of, display and distribute the Software, and (ii) informing your sublicensees, including without limitation your end-users, of their obligations to secure any such required permissions.
